

**Change is easier
than you think**

More check-in
options

IDOL brings you more options to buy single tickets and multi-day Time and Network coupons.

- Download **the Idolka mobile app**. With registration, you will have the full range of IDOL travel documents and other features at your fingertips. From June you have the option to purchase **multi-day Time** and **Network coupons**.
- Since June, after registering in the IDOL **e-shop**, you can manage your account completely and order your Opuscard+ conveniently from home. Already in July, you can buy multi-day Time and Network coupons in advance.
- The new **Opuscard+** combines the function of an e-wallet and an identifier for multi-day Time and Network coupons.
- **It's even possible without Opuscard+!** The Idolka mobile app is an alternative solution. During the summer holidays, you can try it for 7-day and 30-day Time and Network coupons.
- Multi-day Time and Network coupons can also be identified using **In Karta**, **Lítačka** or a **payment card**. Choose what suits you in the e-shop and start using it from September.
- **Individual IDOL tickets** will be available in paper form or in Idolka from September. In both cases, they are **transferable**.
- Cashless payment is usually **cheaper** than cash. Use Idolka, a payment card or Opuscard+.
- What about the old Opuscard? **You will not lose** any valid recorded Time coupons, Network coupons or cash. You can use a travel document bought before 31 August 2023 **until the end of its validity**, giving you time to choose a new solution. The Opuscard can be used as an e-wallet until the card expires.
- As of 31 August 2023, the buying of Time and Network coupons from drivers and conductors on board of vehicles **will be cancelled**.
